

Il16-Flox

Nomenclature	C57BL/6Smoc- <i>Il16</i> ^{em(flox)/Smoc}
Cat. NO.	NM-CKO-220281
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Il16	Synonyms	mKIAA4048
	NCBI ID	16170
	MGI ID	1270855
	Ensembl ID	ENSMUSG000000001741
	Human Ortholog	IL16

Model Description

These mice carry loxP sites flanking exon3 of Il16. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Il16 gene.

*Literature published using this strain should indicate: Il16-Flox mice (Cat. NO. NM-CKO-220281) were purchased from Shanghai Model Organisms Center, Inc..
