

Slc6a3-Flox

Nomenclature	C57BL/6Smoc- <i>Slc6a3</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Slc6a3	Synonyms	DAT, Dat1
	NCBI ID	13162
	MGI ID	94862
	Ensembl ID	ENSMUSG000000021609
	Human Ortholog	SLC6A3

Model Description

These mice carry loxP sites flanking target exons of Slc6a3 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Slc6a3 gene.

*Literature published using this strain should indicate: Slc6a3-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
