

Alcam-Flox

Nomenclature	C57BL/6Smoc- <i>Alcam</i> ^{em(flox)/Smoc}
Cat. NO.	NM-CKO-230139
Strain State	Repository Live

Gene Summary

Gene Symbol Alcam	Synonyms	BEN, SC1, MuSC, CD166, AI853494, DM-GRASP
	NCBI ID	11658
	MGI ID	1313266
	Ensembl ID	ENSMUSG00000022636
	Human Ortholog	ALCAM

Model Description

These mice carry loxP sites flanking exon 2 of Alcam. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Alcam gene.

*Literature published using this strain should indicate: Alcam-Flox mice (Cat. NO. NM-CKO-230139) were purchased from Shanghai Model Organisms Center, Inc..
