

Adcy5-Flox

Nomenclature	C57BL/6Smoc- <i>Adcy5</i> ^{em(flox)/Smoc}
Cat. NO.	NM-CKO-220396
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Adcy5	Synonyms	Ac5, AW121902
	NCBI ID	224129
	MGI ID	99673
	Ensembl ID	ENSMUSG00000022840
	Human Ortholog	ADCY5

Model Description

These mice carry loxP sites flanking exon 3 of *Adcy5*. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Adcy5* gene.

*Literature published using this strain should indicate: *Adcy5*-Flox mice (Cat. NO. NM-CKO-220396) were purchased from Shanghai Model Organisms Center, Inc..
