

Svip-Flox

Nomenclature	C57BL/6Smoc- <i>Svip</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Svip	Synonyms	1700006C13Rik, 6620401M08Rik
	NCBI ID	75744
	MGI ID	1922994
	Ensembl ID	ENSMUSG00000074093
	Human Ortholog	SVIP

Model Description

These mice carry loxP sites flanking target exons of Svip gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Svip gene.

*Literature published using this strain should indicate: Svip-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
