

Dbil5-Flox

Nomenclature	C57BL/6Smoc- <i>Dbil5</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Dbil5	Synonyms	ELP
	NCBI ID	13168
	MGI ID	108039
	Ensembl ID	ENSMUSG00000038057
	Human Ortholog	DBIL5

Model Description

These mice carry loxP sites flanking target exons of *Dbil5* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Dbil5* gene.

*Literature published using this strain should indicate: *Dbil5*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
