

Nrcam-Flox

Nomenclature	C57BL/6Smoc- <i>Nrcam</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Nrcam	Synonyms	Bravo, mKIAA0343, C030017F07Rik, C130076O07Rik
	NCBI ID	319504
	MGI ID	104750
	Ensembl ID	ENSMUSG00000020598
	Human Ortholog	NRCAM

Model Description

These mice carry loxP sites flanking target exons of Nrcam gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Nrcam gene.

*Literature published using this strain should indicate: Nrcam-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
