

Aadac-Flox

Nomenclature	C57BL/6Smoc- <i>Aadac</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Aadac	Synonyms	Aada, AI265437, 5033417E09Rik
	NCBI ID	67758
	MGI ID	1915008
	Ensembl ID	ENSMUSG000000027761
	Human Ortholog	AADAC

Model Description

These mice carry loxP sites flanking target exons of Aadac gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Aadac gene.

*Literature published using this strain should indicate: Aadac-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
