

Pga5-Flox

Nomenclature	C57BL/6Smoc- <i>Pga5</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Pga5	Synonyms	Pepf, 1110035E17Rik
	NCBI ID	58803
	MGI ID	1915935
	Ensembl ID	ENSMUSG000000024738
	Human Ortholog	PGA5

Model Description

These mice carry loxP sites flanking target exons of Pga5 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Pga5 gene.

*Literature published using this strain should indicate: Pga5-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
