

Chil5-Flox

Nomenclature	C57BL/6Smoc- <i>Chil5</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Chil5	Synonyms	Bclp, Bclp1, Bclp2, Chi3l7
	NCBI ID	229687
	MGI ID	2676649
	Ensembl ID	ENSMUSG000000043873
	Human Ortholog	CHIA

Model Description

These mice carry loxP sites flanking target exons of Chil5 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Chil5 gene.

*Literature published using this strain should indicate: Chil5-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
