

Pax8-Flox

Nomenclature	C57BL/6Smoc- <i>Pax8</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Pax8	Synonyms	Pax-8
	NCBI ID	18510
	MGI ID	97492
	Ensembl ID	ENSMUSG00000026976
	Human Ortholog	PAX8

Model Description

These mice carry loxP sites flanking target exons of Pax8 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Pax8 gene.

*Literature published using this strain should indicate: Pax8-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
