

Dbx1-Flox

Nomenclature	C57BL/6Smoc- <i>Dbx1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Dbx1	Synonyms	Dbx, AI426026
	NCBI ID	13172
	MGI ID	94867
	Ensembl ID	ENSMUSG00000030507
	Human Ortholog	DBX1

Model Description

These mice carry loxP sites flanking target exons of Dbx1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Dbx1 gene.

*Literature published using this strain should indicate: Dbx1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
