

Emx2-Flox

Nomenclature	C57BL/6Smoc- <i>Emx2</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Emx2	Synonyms	Pdo
	NCBI ID	13797
	MGI ID	95388
	Ensembl ID	ENSMUSG000000043969
	Human Ortholog	EMX2

Model Description

These mice carry loxP sites flanking target exons of Emx2 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Emx2 gene.

*Literature published using this strain should indicate: Emx2-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
