

Mrc1-Flox

Nomenclature	C57BL/6Smoc- <i>Mrc1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Mrc1	Synonyms	MR, CD206, AW259686
	NCBI ID	17533
	MGI ID	97142
	Ensembl ID	ENSMUSG00000026712
	Human Ortholog	MRC1

Model Description

These mice carry loxP sites flanking target exons of Mrc1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Mrc1 gene.

*Literature published using this strain should indicate: Mrc1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
