

Aldob-Flox

Nomenclature	C57BL/6Smoc- <i>Aldob</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Aldob	Synonyms	Aldo2, Aldo-2, BC016435
	NCBI ID	230163
	MGI ID	87995
	Ensembl ID	ENSMUSG00000028307
	Human Ortholog	ALDOB

Model Description

These mice carry loxP sites flanking target exons of Aldob gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Aldob gene.

*Literature published using this strain should indicate: Aldob-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
