

## **KLN 205**

## **Strain Information**

Cat. NO. NM-S34A

Cell Line KLN 205

Strain State Validation of tumorigenic capacity completed

Model KLN205 is a murine lung squamous cell carcinoma cell line, originally obtained

Description from the Nettesheim lung carcinoma in DBA/2 mice.

\*Literature published using this strain should indicate: KLN 205 cell line (Cat. NO.

NM-S34A) was purchased from Shanghai Model Organisms Center, Inc..

## **Validation Data**

Fig1. Morphology of KLN 205 cell line.

Fig2. Analysis of Tumorigenesis in DBA/2 mice (n=4) . A Tumor volume was measured by time. B Body weight was simultaneously checked.

\*Wild-type cell lines are not for sale, and only applied to construction of tumor bearing mice and in-vivo efficacy studies.
